Dear Mr. Woodroof:

It was a great pleasure to attend your recent seminar on Carbon Reduction Manager. I found the presentation extremely educational and beneficial.

You were very motivational, and the information presented was intelligently done. I believe you provided the ground work and vision to address global warming concerns for our planet and the future for our country.

If I can be of any assistance to you or future clients interested in attending the program, it would be a pleasure

Sincerely,

Benjamin Alkhas
