

August 25, 2008

To Whom it May Concern,

Dr. Eric Woodroof has been an active member in the Association of Energy Engineers (AEE) for the past 15 years. In addition, he has held a seat on the Certified Energy Manager (CEM) certification board for 10 years. The CEM is AEE's flagship certification and is an internationally recognized and respected certification in energy management. As a board member, Dr. Woodroof has made significant contributions to its continued success. Dr. Woodroof is also Chairman of the Carbon Reduction Manager Board and is an authority on sustainability issues.

As the Executive Director of AEE, I have come in contact with thousands of engineers and energy professionals. Dr. Woodroof is among a select few individuals that we entrust to instruct certification courses on behalf of AEE. Dr. Woodroof has presented several AEE certification courses in the US and internationally impressing senior instructors and showing his flexibility and wide range of knowledge in the field of energy management and sustainability/carbon management. He brings long-term experience and cutting edge knowledge together to convey crucial information to course participants in a positive and exciting manner.

Dr. Woodroof is always willing to go the extra mile for the good of AEE, the industry, and the course participants. We are extremely fortunate to have Dr. Woodroof as a resource and a professional, well-respected, knowledgeable instructor.

If you would like any additional information, I would be happy to provide it. Please feel free to contact me at (770) 447-5083, ext 212.

Sincerely,

A handwritten signature in black ink that reads 'Al Thumann'.

Al Thumann
Executive Director
Association of Energy Engineers
