To whom it may concern:

I have known Dr. Eric Woodroof and worked with him for almost fifteen years. He has a broad background in energy management, which includes energy auditing and energy analysis, with an emphasis on financing energy projects. Eric has spent a lot of his time in the last several years working on ways to reduce carbon for many organizations. He has presented papers at the World Energy Engineering Congress and other conferences; has written books on these topics; and has served the Association of Energy Engineers in many ways including the Certified Energy Manager Advisory Committee. He has taught the CEM several times for AEE and also teaches a very popular Carbon Reduction Seminar. Eric has served as Vice President for Region IV of AEE. Two of his articles appear in the Encyclopedia of Energy Engineering and Technology.

Eric is a highly energetic and dynamic professional with many new ideas in the energy and carbon management areas. It is my pleasure to recommend Dr. Eric Woodroof for instructing, writing or general consulting.

I have attached a copy of my own Professional Qualifications to establish my credibility to evaluate the capabilities and performance of Dr. Eric Woodroof. Please contact me if I can provide any additional information regarding this reference.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Barney L. Capehart".

Barney L. Capehart, PhD, CEM
Professor Emeritus, University of Florida
Member AEE Hall of Fame
Fellow IEEE, AAAS, and IIE
